

THINGS for THANKSGIVING! LIKE CUTLERY &c.

MR. CARVER:

You won't mind carving that bird if you have a carving knife that will "carve."

MRS. CARVER:

You'll be glad to have your friends dine with you if you have new knives, forks, and spoons for the table. Come and see ours. Full line of Carver's and Silverware.

PLANTERS HARDWARE CO.
INCORPORATED.

MR. HAGAN DEAD

Cashier in I. C. Office Succumbs to Typhoid.

R. A. Hagan, cashier in the local office of the Illinois Central, died of typhoid fever at the home of his mother, in Elizabethtown, Sunday morning, after an illness of about three weeks, aged 23 years. Mr. Hagan was taken ill here and at once went home and continued to grow worse until the end came as above stated. He had been in the employ of the I. C. at this place for about four years and was a most excellent young business man, with a host of friends. He started in with the company as yard clerk here and had filled all the offices up to cashier, the position to which he had been promoted some time before he was taken sick.

UP TO SNUFF

Democrats Capture Mayor in Republican Town.

Somerset, Ky., Nov. 13.—One of the greatest surprises given the people here over the results of election was when the official count was made, and it was found that Robert L. Brown, a well known lawyer, had been elected Mayor of Somerset, and the Board of Election Commissioners has issued him a certificate of election.

On account of the change of Somerset by the last session of the Legislature from fourth to a third-class town, the Mayor's office was to be filled by election. This seems to have been overlooked, and no device for Mayor was on the ballot, and Mr. Brown was elected by his name being written on the ballot and voted for.

Stormy Conditions.

A cyclone in the Northwest is reported to have caused heavy loss to life and property. Twelve dead and several dying are reported in the wake of the storm. Cold weather is promised Louisville, but it was given out yesterday that there was no danger of a cyclone.

Dixie Flyer, Jr.

Trains Nos. 90 and 91 will be put on between Evansville and Hopkinsville Sunday, November 26, to accommodate local traffic. This train will be known as the "Dixie Flyer, Jr." and will be run on about the same schedule as last winter.

MORE BONDS FOR SCHOOL

Mayor Vetoes Loan Ordinance
And Recommends Bond
Issue.

SCHOOL BOARD PLEASSED.

Issue Made \$30,000, Enough to
Complete The Big New
Building.

At a called meeting of the Council Friday night, Mayor Meacham presented his veto of the ordinance passed at the previous meeting authorizing the Public School Board to issue \$20,000 of mortgage notes at five per cent, the holders of the notes to be exempted from taxes on them. The veto was upon the ground that the council has no authority to exempt any property from taxation except manufacturing establishments as an inducement to their location. The Mayor recommended a bond issue as a legal method and presented an ordinance authorizing a further issue of five per cent, twenty year bonds, redeemable on call, and the ordinance was passed by unanimous vote. President W. A. Long, of the school board, was present and said the board much preferred the bond issue to the notes. The issue was made \$30,000, which will be sufficient to finish the new \$100,000 High School and have it ready for occupancy by February 1. The ordinance was at once approved by the Mayor and the bonds will be sold Thursday at eleven o'clock, at the city clerk's office. They will bear date of Dec. 1, 1911, and are similar in every respect to the outstanding issue of \$38,000 sold last spring.

A contract for the construction of a large sewer on Tenth street, beginning at 11th and Virginia and extending 980 feet to the river, was awarded to the Meacham Contracting Co. at \$3.15 per lineal foot for the sewer and the excavation estimated at \$1.03 per lineal foot. The estimated cost is \$4087, about one-fourth of which it is provided by ordinance shall be paid by the Illinois Central Railroad Co., under a condition of its grant requiring the road to provide for all drainage on streets it uses. The sewer is to be completed by April 1, 1912.

John Hines, a former fireman, was elected to a vacancy in the Fire Department.

A deed from Palmer Graves for a strip of land 25 feet wide on the river bank was ordered put to record.

HELD JUSTIFIABLE

Jim West Released of Charge
of Murdering Bob Ross.

Jim West, the negro man who killed a white man named Bob Ross, under circumstances that indicated that Ross was trying to steal a hog from his pen near Cate's Mill, a few nights before, was tried Thursday and released from jail. It is doubtful if the grand jury will take any notice of the case.

Dr. Smith's Special Sermon.

Eld. H. D. Smith, of the Christian Church, preached a strong sermon Sunday on the subject "Is the town growing better?" He took the ground that there has been much improvement in the commercial, educational, religious and moral development of the city. He said there had been improvement in sobriety and law enforcement, but the city can never reach the ideal condition until its liquor traffic is abolished, as no city could continue to flourish whose prosperity was based on "bleed money."

REGULAR BLIZZARD

Spoils Our Beautiful Autumn
Weather With Snow
And Ice.

WHOLE NORTHWEST IN GRIP.

Colder and More Boisterous
Weather Is Prophesied for
The Gulf Coast.

Washington, Nov. 13.—A touch of winter will be felt over practically the entire country this week and there will be many sudden changes in the weather, according to the weekly forecast issued by the weather bureau.

"The coming week," says the bulletin, "will be one of pronounced weather changes and low temperatures over practically the entire country. The cold wave that now covers the middle west will advance rapidly eastward and give the lowest temperatures of the season the first two days of the week throughout the eastern and southern states."

Hopkinsville Hit.

The blizzard struck this city Saturday night and Sunday morning there was a covering of snow and sleet on the frozen ground and a raw wind made everybody go to ransacking drawers for last year's heavy underwear.

The sun shone brightly but the cold spell showed no relaxation yesterday, the inclement weather proving to be a severe setback to the city's building boom.

And still there's more to follow.

STOCK COMPANY.

To Put The Bowles Photo-
graphic Lamps on The
Market.

W. R. Bowles has completed the arrangements for the manufacture of his recently patented photographic device and all of the stock of a \$50,000 company has been subscribed.

The company is composed of W. R. Bowles, president; J. H. Rosenberger, vice president; W. M. Copeland, treasurer and manager of factory; L. Haydon, secretary; E. Weil, J. Will Gleichman, J. C. Zutt, consulting board; Joe McCarroll, of Hopkinsville, and Funkhouser & Funkhouser of Evansville, attorneys. The lamp will be manufactured on a large scale at the Single Center building in Evansville where the accommodations are ideal. The office of the president and secretary will be here in Hopkinsville.

It has been found that the lamp can also be used by engravers and a change has been made to adapt it to this new purpose.

Mr. Bowles and Mr. Copeland are now visiting Rochester, N. Y., and other points in the east for the purpose of securing further fittings for the lamp. Among these will be a lens so that a photographer or engraver who buys one of the lamps can get it either with or without this.

Mr. Bowles' friends are confident that he will make a fortune out of his invention.

He will not leave this city, nor will his photographic business here be interfered with.

Change Of Time Card.

The Tennessee Central railroad company has changed its schedule on this division, as follows: The early morning train leaves here at 6:30 a. m., instead of 7 o'clock, reaching Nashville one hour earlier than formerly; returning, this train leaves Nashville at 5 o'clock p. m., reaching Hopkinsville at 8:15, instead of 9:15.

A dispatch from Malta says: Arab women, dressed in men's clothing, are leading in the fighting against the Italians in Tripoli. The sex of these amazons was not discovered until a number of them had been killed. This information was received here today on steamships from Tripoli. Passengers on the ships declared that Gen. Caneva, Commander-in-chief of the Italian troops in Tripoli, is using this fact as an excuse for the Italian slaughter of women and children. According to Caneva, the women were so disguised and fought with such savage courage that the Italians did not suspect them of being women. The reports sent out were that Italians deliberately slaughtered women prisoners after they had been captured. If they were soldiers fighting for their homes, there was still less excuse for murdering them as prisoners of war.

FOR SALE

At Clarksville Tenn., On November 20th, At 11 O'clock A. M.

We will offer for sale at auction on the premises, our Water Street Stemmy. It is a three story brick building covered with steel roof, with detached brick boiler house, containing 40 h. p. water jacketed boiler and engine. The house is equipped with steam and air drying apparatus, screws, trucks, scales, etc.

It has a capacity for handling two to two and a half millions of pounds of tobacco during the season. The factory lot gives ample room for further extensions, measuring about 250 feet by 112 feet.

Terms of sale, one-third cash, balance in 1 and 2 years, notes bearing 8 per cent. interest, and a lien on the property.

Location is one of the best in town for a loose tobacco business.
M. H. CLARK & BRO.

More New Pavements.

The new concrete walks on both sides of Main Street, between Tenth and Eleventh streets are nearing completion. They are being finished by a new rough process, the first of the kind in the city.

The New Cartoon.

A local philosopher, laughing over one of Ralph Wilder's cartoons in THE CHICAGO RECORD-HERALD the other day, remarked that the cartoon was mightier than the sermon. Certainly the humorous picture that has come to be so popular a feature of the big city newspaper often hits off the news of the hour with a veritable stroke of genius.

The whole art of the cartoonist has become more kindly, less slashing, than in the days when Thomas Nast began it. The cartoonist no longer hits somebody over the head for your amusement, but tickles you under your own ribs somewhere near the heart. He does it by illustrating the little humors of human nature, of domestic life, of boy nature, of feminine foibles—any sort of homey or timely joke that both husband and wife can laugh over at the breakfast table.

One of the gentlest, cleverest and happiest cartoonists of this new school is Ralph Wilder, whose daily picture on the front page of THE CHICAGO RECORD-HERALD is an unfailing delight. Mr. Wilder's drawing is unsurpassed, and his humor, if not surpassing, always has a "point" with a smile in it. His pictures help to brighten life and send one to one's own task more cheerily. They help to explain why THE RECORD-HERALD is the favorite family

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly.

No other Newspaper in the world gives so much at so low a price.

The great Presidential campaign will soon begin and you will want the news accurately and promptly. The World long since established a record for impartiality, and anybody can afford its Thrice-A-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-A-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that is to be found in a first-class daily.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the Hopkinsville Kentuckian together for one year for \$2.65. The regular subscription price of the two papers is \$3.00.

Saved Child From Death.

"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, la-grippe, Asthma, croup and sore lungs, its the most infallible remedy that's made. Price 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.

No Conclusion.

The voluntary dissolution of the Harvester Trust was discussed yesterday at the Department of Justice in Washington. It was declared no conclusion had been reached.

Hot at Tampa.

Fall heat records have been broken at Tampa. The maximum temperature yesterday was 84 degrees. The excess in temperature during the first nine days of November is 67 degrees.

A Burglar's Awful Deed

may not paralyze a home so completely as a mother's long illness. But Dr. King's New Life Pills are a splendid remedy for women. "They gave me wonderful benefit in constipation and female trouble," wrote Mrs. M. C. Dunlap, of Leadill, Tenn. If failing, try them. 25c at all druggists.

Where Are They?

Washington, Nov. 9.—During the last ten years the negro population of Kentucky decreased to the extent of 81 per cent. of the entire negro population total—23,050 fewer colored inhabitants being found in the State at the thirteenth census in 1910 than were found in the twelfth census in 1900.

In the nation of whites number 88.9 per cent. of the population and the negroes 10.7 (all others .4), whereas ten years ago the whites numbered only 87.9 per cent. of the population and the negroes 11.6.

It Startled The World

when the astounding claims were first made for Bucklen's Arnica Salve, but forty years of wonderful cures have proved them true, and everywhere it is now known as the best salve on earth for Burns, Boils, Scalds, Sores, Cuts, Bruises, Sprains, Swellings, Eczema, Chapped hands, Fever Sores and Piles. Only 25c at all druggists.

Are You a Woman.

Baltimore, Md.—Mrs. W. H. Ison, at 1419 East Madison street, writes, "For several years, I suffered, off and on, from female troubles, until finally I was taken down and could do nothing. The pains I experienced, I shall never forget. I lost weight till I was only skin and bones. I believe I would have been in my grave, if I had not tried Cardui. I shall praise it as long as I live." Many women, like Mrs. Ison, are weak and discouraged, on account of some painful ailment. Are you one of these sufferers? Cardui will help you. Try it today. Any druggist.

Parachutes For Airmen.

The fatalities of the Chicago aero meet emphasized the necessity of life preservers for air men. It is felt that the time must soon come when every machine will have its parachute or some safety appliance. Aviation demands development along utilitarian lines, with due regard for the laws of physics. Even as a heavy weight which could not be lifted can be rolled up an incline plane, so it is thought in some way the law of physics might be developed, and thousands of pounds be rolled up in the air with perfect safety. Thus would be made possible achievements which even Archimedes contemplated as theoretical possibilities. Ultimately aviation may literally lift the burdens of mankind, as well as sweep the heavens with the joyous freedom of the birds of the air.—National Magazine.

Is the World Growing Better?

Many things go to prove that it is. The way thousands are trying to help others is proof. Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufferers, everywhere, to take them. "For years I suffered with stomach and kidney trouble," she writes "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. They're the best tonic and finest liver and kidney remedy that's made. Try them. You'll be at all druggists.

Denounced by Daughters.

The United Daughters of the Confederacy, in convention at Richmond, Va., yesterday adopted resolutions denouncing the Elson history of the war between the States, and condemning its use in Southern Schools.

Who Was There That You Knew?
In the shadowy ranks of those who marched to defeat or death or victory fifty years ago in the mighty conflict that convulsed this great nation, is there a father or grandfather or uncle of yours? Would you like to see a photograph of him in that long ago day of his youth—a photograph that he never knew existed? Perhaps we can show you one; and in any case, we can tell you a story, stranger than any detective fiction, of 3,500 priceless photographs that were lost and are found again.

3,500 Long Buried Photographs of the Civil War
THEY were taken by the greatest photographer in the United States of that day; they were bought by the United States Government for \$30,000; they were buried in the War Department for 50 years—they are buried there still. But a duplicate set was kept by the photographer—who died poor and broken down; that duplicate set was knocked from a pigeon hole for nearly 50 years, until it was discovered by a New England collector, J. Pierpont Morgan tried to acquire the collection—President Garfield and General Sherman P. Butler said it was worth \$150,000—yet with the help of the Review of Reviews, the entire collection has been rescued like 10 great volumes and is placed within your reach at a price less than the value of one of the photographs. It is the most amazing, sensational history of the Civil War ever written—entirely true. It tells the story of the War you never heard before. Taken under protection of the Secret Service, these photographs bring to light thousands of little-known phases of the war; they penetrate to strange places and show strange things.

REMEMBER—Our privilege of selling these books is limited as to time. Our supply of Free Portfolios is limited. You must be prompt to secure either. Better come today.

Review of Reviews Company
13 Astor Place, New York

12 of These FREE
For the Cost of Mailing
In order to give you some idea of the greatness of this work, we will send you 12 superb reproductions of the photographs (3x5) at no charge in a handsome portfolio. These photographs are very rare and valuable, but if you send only 10 cents to cover the cost of mailing, they are sent to you free. They are not only interesting from a historic standpoint, but, framed, make a splendid addition to your library walls.

At the same time we will tell you how the Review of Reviews can offer this unique collection of 3,500 photographs at the price of 10c each. The United States Government paid for three of the pictures.

TECHNICAL WORLD MAGAZINE
First—**"Kentuckian"**
A virile, newsworthy newspaper with the interest of the entire community at heart. Issues of the day are handled without fear or favor. You will find in this paper an up-to-date department for each member of the family. Clean, honest, straightforward—it is a paper your family should not be without.

Second—**Technical World Magazine**
Is the one magazine that not only entertains in a fascinating manner, but which also instructs. It is the magazine for the busy business man, or for the person who wants to keep away a summer's afternoon, and be agreeably informed at the same time. It is profusely illustrated, and tells in a simple and interesting way of the discoveries of scientists, the achievements of inventors, the feats of engineers and explorers, and the opening of every new field of human endeavor. What Jack London says: "I have just chanced upon my first copy of TECHNICAL WORLD MAGAZINE. There isn't anything like it. I want more, and I cannot wait for them to come, so I am sending you herewith check for which please enter my subscription and send me immediately the last two years' back numbers."

Third—**A Fine Atlas**
This one is just off the presses. This is the year to obtain a new atlas. The 1910 Census has just been completed, this atlas contains the official figures, 128 pages of 3 color maps brought right down to date—every map giving the results of the most recent surveys. All railroads are shown and named and maps of all large cities are included. There are 24 double page maps showing in detail portions of the U. S. and Canada. Dimensions 10 1/2 x 13 1/4. Bound in stiff linen—Silver Leaf Title—printed on heavy plate paper. Sells regularly for \$3.00. A splendid gift.

ALL THREE Only \$3.80
Special arrangement with Technical World Magazine and the publishers of this Atlas make this offer possible. But it is very strictly limited. You must act immediately.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Massacre of Mohammedans.

After all the complaints Christians have lodged against the Mohammedan and the relentless manner in which he has murdered, the slaughter of Mohammedan non-combatants by Christians comes as an unexpected shock.

The slaughter of Turks who are not armed by Christians is worse than the Mohammedan slaughter of Christians, for the Mohammedan has been taught that the slaughter of Christians is the best means of advancing the cause of Mohammed. But the Christian religion is based on mercy. It tenets do not justify the sacrifice of human life. Its humanity is the basis upon which its

great campaign for civilization has been based.

Press reports indicate that the Italian army has been merciless in its slaughter of Turks. More than 3,000 Arabs, taken as prisoners of war, are said to have been executed. Some of these are reported to have been herded into enclosures and shot down under the pretense that they were not prisoners of war.

Surely Italian officers have not permitted the atrocities reported in some dispatches from Tripoli. No civilized army merits the respect of other world powers if it permits massacre under the conditions reported. It is pleasant to believe that the reports have been based on misinformation.—Tennessean.

GRIM TRAGEDIES OF OCEAN COLDS AFFECT THE KIDNEYS

Many Vessels Abandoned at Sea That Are Constant Menace to Navigation.

There is a grimness about the brief news dispatch which states that the derelict destroyer Seneca, of the United States revenue cutter service, weighed anchor and steamed out of New York harbor to search for derelicts of the seven-day storm which ended recently. Vessels that have been abandoned at sea, unless deliberately destroyed, continue to be a menace to shipping for a long period following their abandonment. For many years it was customary for sea captains, on coming into port, to report such derelicts as they had observed during a voyage, and the government published charts in which the position of the reported derelicts was shown, in order that sailing masters might be on their guard against collision with them. There was at one time some talk of international co-operation in the task of clearing the sea of these floating ships, but nothing came of it, and the United States government finally took the matter up on its own account, being for a long time the only government which did so, and presumably it occupies that position to this day. The vessels designated as derelict destroyers are specially fitted out with dynamite and other means of destroying and sinking the floating menaces to navigation, and the significance of the departure of the Seneca lies in the fact that the storm of last week is supposed to have caused many wrecks off Hatteras and along the coast of the Carolinas.

HARD TO PAY THE TAXES

French Deputy Runs Afoul of Red Tape When He Tries to Get on Tax Roll.

Jean Javal, who was elected deputy of the Sens division of the Yonne department in France in 1910, bought a house in Sens just after the election. Discovering a few days ago that he had never paid any taxes on the property he looked up the list and found that his name had never been placed there.

As no self-respecting socialist-radical republican deputy would care to avoid such an obligation, and not forgetting the weapon non-payment of taxes would give to his opponents in a future election, M. Javal wrote to the authorities asking to be inscribed on the list.

The letter was returned with the notification that his request could not be considered unless it was sent in on stamped paper, with a 60 centime (10-cent) stamp.

Violin Was a "Find."

Gaylord Yost, violinist, has a valuable violin which he acquired under interesting circumstances. His story of the "find" as told by himself follows:

"One day in Berlin, as I came out of one of the music stores I was stopped by a couple of gypsies. They had at least a half dozen violins caught up loosely by the necks. Some were stringless, cracked and dirty. They asked me if I wanted to buy a violin cheap and I replied that I was always looking for good violins. Meanwhile I had scanned the violins and I observed one with very artistic lines and workmanship, good varnish, but in bad repair. I asked him how much they wanted for that one and they replied 120 marks. Of course I could not try the violin in the street so I gave them my card and told them to call in the afternoon. As soon as I placed the bow on the strings I realized what it was. I finally got the violin for 79 marks. I guess it was cheap. Would I sell it? Well, hardly."

Real Enemy of Aeroplane.

One still often reads comments on the effects of mushetry on aeroplanes, usually written by those who have probably never seen the effect of bullets fired from a distance. It has been truly said that to hit a "rocketing" aeroplane with a rifle shot is an extremely difficult matter, but to conclude that the aviator is therefore immune when at 1,000 feet up is absurd, says Sir Baden-Powell. It is not the danger from one marksman that has to be taken into account, but volleys from a whole battalion. If 2,000 or 4,000 shots be fired at a machine while it traverses one hundred yards, there is a good chance of its sustaining some danger so long as it is well within range. It is, however, the Maxim gun that seems likely to be the most formidable enemy of the aeroplane. All such guns must in future be mounted in such a way as to enable them to be fired nearly vertically.

How to Use a Life Preserver.

"The worst trouble" about a life preserver," said an old sailor, "is that few people know what to do with one when it's thrown to them. Many a man would drown in trying to get a life preserver over his head."

"The average person struggling about in the water would try to lift up the big life ring and put it over his head. That only causes the man to sink deeper and take more water into his lungs."

"The proper way to approach a life preserver in the water is to take hold of the side nearest you and press upon it with all your weight. That causes the other side to fly up in the air and down over your head, 'ringing' you as neatly as a man ringing a cane at a county fair. After that the drowning man can be rescued."—From the American Boy.

Many Hopkinsville People Have Found This to be True.

Are you wretched in bad weather? Does every cold settle on your kidneys?

Does your back ache and become weak?

Are urinary passages irregular and distressing?

These symptoms show kidney weakness.

The kidneys need quick help.

Doan's Kidney Pills should be used at once.

Grateful people recommend them.

S. L. Starned, Cadiz & Rock Castle Road, Cadiz, Ky., says: "I suffered from kidney trouble for some time, the principal symptom being painful passages of the kidney secretions. I often awoke in the morning feeling tired and unfreshed and had a dull ache through my loins. A slight cold settled in my kidneys and caused me additional misery. I at length heard about Doan's Kidney Pills and procured them. The result of their use was satisfactory in every way. I was relieved of kidney trouble in a remarkably short time and I give Doan's Kidney Pills the credit."

For sale by all dealers. Price 50 cents. Foster-Wilburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Overlooked.

We wish to make some mark in life. We turn to the distant and far away, when, indeed, the things for us, the things to make our marks upon, the things to do with, grow by, to let us into the desired happiness are the little ones lying just here about our daily path—the overlooked things next to us.—J. F. Ware.

WHY OWN

WEBSTER'S
NEW
INTERNATIONAL
DICTIONARY

THE MERRIAM WEBSTER?

Because it is a NEW CREATION, covering every field of the world's thought, action and culture. The only new unabridged dictionary in many years.

Because it defines over 400,000 Words; more than ever before appeared between two covers. 2700 Pages, 6000 Illustrations.

Because it is the only dictionary with the new divided page. A "Stroke of Genius."

Because it is an encyclopedia in a single volume.

Because it is accepted by the Courts, Schools and Press as the one supreme authority.

Because he who knows Wins Success. Let us tell you about this new work.

WRITE for specimen of new divided page. G. & C. MERRIAM CO., Publishers, Springfield, Mass. Mention this paper, receive FREE a set of pocket maps.

High School Loses Close Game
Clarksville High School.

Saturday afternoon Clarksville High School defeated Hopkinsville High School by the score of 3 to 0. This was one of the hardest fought gridiron battles ever played here. Clarksville out weighed the locals by about ten pounds to the man, but they were out-played at every point of the game and only by the merest piece of luck did they win. Only once did they get within striking distance of the High School goal line and this time they used to advantage by kicking a drop kick, thus scoring the points that won the game. Only four times did they make first down, yet they won the game. On the other hand High School seldom failed to make first down and got on their opponents' one yard line at four different times.

For High School Capt. Green, Abbott and Roberts played stellar football.

Cooper, Hambaugh and Anderson showed up best for Clarksville. High School lined up as follows:

Center—Robertson, L. Guard—Ware, R. Guard—Walker, L. Tackle—Gary, R. Tackle—McReynolds, L. End—Roberts, R. End—Weeks, Hayes, Quarter—Green, Capt., L. Half—Abbott, R. Half—Higgins, Fuqua, F. Back—Rives.

Whitley Corn Show.

Thirty-five Whitley county boys competed a corn show held at Williamsburg yesterday. The boy who won the prize for the best yield produced 112 bushels to the acre.

Henderson Won.

Columbia College, Owensboro, and Henderson High School football teams met Saturday at Henderson and the locals won by 11 to 0.

AMUSEMENTS

A rare musical treat will be given local theatre-goers next Friday evening, Nov. 17, when "Jolly" John Larkins and his happy flock of pretty girls and funny boys will be heard at Holland's Opera House in the new big musical comedy, "Royal Sam" which is being brought here direct from its New York run. "Jolly" John Larkins, who enjoys the distinction of being "America's Foremost Colored Comedian" in his line, can be confidently relied upon to contribute his share toward a delightful evening's entertainment. The same excellent company of comedians and singers as was with John Larkins during his New York run will appear with him in this city. Larkins has just terminated a four years' contract as co-star with Black Patti.

Purely Personal

Miss Alice Radford came home Friday from Ward's Seminary accompanied by Miss Mary Lucy Fugate of Adairville, her room mate. They returned to Nashville yesterday.

Miss Lucile Ellis is visiting Miss Sue Lovett in St. Louis.

Miss Addie Peace has returned from a visit to Texas and New Mexico.

Miss Mary Givens, of Pittsburg, Ky., is visiting Miss Louise Moore.

Ed A. Stowe, who has been visiting his old home and relatives for several weeks leaves this morning for his home in Redlands, California. Mr. Stowe has made good in California, but still takes an interest in his old Kentucky home. While away from us, the Kentuckian keeps him posted and in touch with affairs and people here.

W. M. Steinbaugh, a contractor of Princeton, died Saturday, aged 41 years. He died from sticking a nail in his leg while working on a church at Dixon.

The World Plays Fair.
Depend upon this: You get what is coming to you, be it a big honor or a swift swipe.

Prizes For Baseball Players.

That the baseball players throughout the country have something other than honor and glory together with their weekly stipend to look forward to, is strongly emphasized in the annual report, which has just been issued relative to the Bull Durham signs, which are located in the majority of the baseball parks in the United States.

In connection with these signs, there is an offer of \$50.00 in cash to any player hitting the Bull with a fairly batted fly ball, and a carton of Bull Durham for every home run made in these parks. The Bull Signs have been hit 238 times this past season, which hits have enriched the fortunate players to the amount of \$11,900.00. There have been 4,322 home runs made in these parks, and as a result, the heavy hitters have received Free Tobacco to the extent of 19,449 pounds, of \$11,184 Five-cent packages.

A special report of the work in the K. I. T. League Parks, is given herewith.

Clarksville, Tenn., The Bull Sign was not hit. There were 28 home runs made during the season, which netted the heavy hitters 126 pounds of tobacco.

Hopkinsville, Ky., The Bull Sign was not hit. There were 7 home runs made during the season, which netted the heavy hitters 31½ pounds of tobacco.

Paducah, Ky., The Bull Sign was not hit. There were 16 home runs made during the season, which netted the heavy hitters 72 pounds of tobacco.

Vincennes, Ind., The Bull Sign was hit Sept. 1—William Zimmerman—Clarksville. There were 14 home runs made during the season, which netted the heavy hitters 63 pounds of tobacco.

League totals.—The Vincennes Bull was the only sign in the league which was hit, and Bill Zimmerman received \$50.00 for the feat. There were 65 home runs made in the league, for which the sluggers received 292½ pounds of Bull Durham.

Madisonville and Princeton football teams will play at Princeton next Saturday.

An Innovation in Oil Heaters

The Perfection Smokeless Oil Heater, with its drums enameled in turquoise, is an ornament to any room, whether in the country or city home.

No home is quite complete without a Perfection Oil Heater. It is a necessity in the fall and spring, when it is too warm to start the regular heating apparatus, and too cool to be without heat. In the midst of winter it is often convenient as an auxiliary heater, as there are always some cold corners in a house.

The enameled heater always presents a nice appearance, as the enamel will not tarnish or burn off. It is not an "enamel paint," but it is the same as the enamel of your cooking utensils.

The Perfection is the most reliable and convenient portable heating device you can find. An automatically-locking flame spreader prevents turning the wick high enough to smoke.

PERFECTION
SMOKELESS
OIL HEATER

Dealers everywhere. Ask yours to show you the Perfection Heater enameled; or write for descriptive circular to any agency of

Market for Rhodesia Oranges.

The oranges of Rhodesia, in South Africa, will have their market in England, according to the London Times, during the summer months, "when this class of fruit does not come from other parts of the world."

The Last Word.

"What's the first word in the dictionary?" asked the student. "The article 'a,' of course," replied Mr. Growcher. "And what's the last word?" "Ask my wife. She's an expert on the subject."

Had Been in Training.

A man who had undergone a court examination by a lawyer in Chicago without faltering for a second was complimented by the lawyer later for his accurate manner of recalling early and minor episodes of his life. "I was well rehearsed for it," said the witness. "Only yesterday I had to fill out an application for a telephone."

The Hotel Booklet.

I like to read in little books of grassy lawns and shady nooks and sandy dunes and purling brooks, but then I take a peek a little further on and see that all this joy is far from free, and that's the painful part to me—that thirty plunks per week.—Washington Herald.

Cotton Supplants Poppies.

In some parts of China cotton is supplanting poppies as a crop, because of the rigid laws against the use of opium.

IS DEAN OF ALL INDIANS

Sitting Elk, Mighty Warrior Who Never Killed White Man, is Oldest Redman.

Oldest of all Indians in the United States, Sitting Elk, former chief of the Ogallala Sioux, is visiting in Denver, the guest of the white man, against whom he always refused to make war.

For almost a century he has been a leader among his people, but, wiser than other chiefs, he early realized that the red man was doomed and at every opportunity he counseled peace with the palefaces.

He could well afford to do so, for his people knew he was no coward.

"I have never killed a white man," he proudly boasts, "but I have fought many battles, and I have done many brave deeds in my long life of ninety-six years. I was but seventeen when I waylaid and killed my first enemy. That was a very brave deed. Since then I have killed many, many enemies."

Sitting Elk is a total abstainer. He smokes cigarettes, but insists he has none of the other bad habits of the white man. He is childless, the last of his line, but he expects to live for many years more—to be hale and hearty long after he has passed the century mark.

Sitting Elk moves tall and stately among his kinsmen, and puffs his pipe with a complacency untroubled by thoughts of any immediate journey to the happy hunting grounds.

Bright of eye, keen of mind, the old warrior dons paint and feathers for his appearance with the younger members of his tribe in the headlong dashes across the amphitheater at the stock yards, and rides with an abandon which defies the spectator to single him from the reckless redskins who have but one-fourth his years to their credit.

HOUSE WITH NO STAIRS

Pittsburg Man Plans New Residence Embodying Some Very Unique Features.

The new residence which is being built on the Clearview plan at Mount Lebanon, Pittsburg, for A. G. Smith of Pittsburg, has some features which are unique and probably not embodied in any other residence in this section.

The house is without stairways or steps, the slope idea having been substituted. The grade of this slope is about ten per cent. Entering from the veranda to the large reception hall one's attention is directly drawn to the unique method employed of reaching the upper floor. In the living room, which is probably 20x35 feet, a large concrete fireplace and mantel is the principal feature, with a wide bay window. There are no corners to the house, as each of the four ends of the residence are of the bay type.

The only wood used in the construction of the building is to be found in the door sills, windows and floors, the latter of which will be hardwood. The walls of the building are of cement, finished with white cement trimmings. Even the two bathrooms are fitted with cement tubs. In all there are ten rooms. The roof is of concrete, surrounded with a parapet, the porch roofs are of the same type, thus affording second story porches in the front and rear, both of which are fitted up with concrete flower troughs in which blooming flowers are now to be seen even in the unfinished condition of the house. On the front second story porch a fountain is arranged.—Engineering Record.

Durability of Steel.

It has been shown that nearly all the failures of steel occur very early in its history. If a plate or bar of mild steel lasts for a year in service, it may be trusted to last for many years. The most injurious thing is continued bending backward and forward, as in what is called the "panting" of a boiler end. As one authority puts it, steel has a somewhat "tumultuous youth," but "in middle age it is trustworthy, and in old age beyond reproach." In regard to corrosion there is a difference of opinion, some holding that steel corrodes more readily than iron.—Harper's Weekly.

Gathering Fruit.

When gathering fruit, peaches or pears, a clever woman invented a simple device that insured the plucking of fruit without danger of bruising it.

The top was taken off a tin tomato can and the can attached to the end of a broomhandle, so that it formed a cuplike arrangement.

The can is put up underneath the fruit and a slight shake given to detach it from the tree, letting it fall into the can, which is lowered and emptied quickly. Put a can on the end of a clothes prop if the fruit hangs high.

"George Sand."

It was from Leonard Jules Sandeau, the celebrated French novelist and dramatist, born at Aubusson a century ago, that another and far greater writer derived her nom de guerre.

When a young student in Paris Sandeau made the acquaintance of Mme. Dudevant, and during a short-lived friendship they collaborated in a novel, "Rose et Blanche," which was published in 1831. Then they parted, but Mme. Dudevant, while relinquishing Sandeau's friendship, took to herself a portion of his name and elected to be known henceforth as George Sand.

Might be Dead Today.

Garden City, Kas.—In a letter from Mrs. James Hanner, of this city, she says, "I firmly believe that I would not be alive today, if it were not for Cardui. I have been a sufferer from womanly troubles all my life, until I found that great remedy. I feel that I can't praise it too highly." Are you a woman, suffering from some of the troubles, to which a woman is peculiarly liable? If so, why not try Cardui, the woman's tonic? You can rely on Cardui. It is purely vegetable, perfectly harmless, and acts gently but surely, without bad after-effects. 'Twill help you. Ask your druggist.

JOHN W. GATES AND THE CAB

Little Gambling Episode in Which "Watch-Me" Was Able to Say "You Lose" Three Times.

A Gates anecdote that never got so far as it deserved, if it was true, was about his riding down town from a New York hotel in a cab with a stock market friend.

"I'll match you," said John Watch-me, "to see whether you or I buy this horse and cab from the driver, if it's his."

It was cabby's, so they matched, and John Watch-me had the satisfaction of saying, "You lose." The bargain struck, John Watch-me had another proposition to offer the new owner.

"Now I'll match you," he said, "to see whether you keep the outfit or whether you sell it back to cabby at his own price." And once more John Watch-me said, "You lose."

Here it dawned upon Gates' companion that in the last match John Watch-me had stood no chance to lose, whichever way it went, and he made remarks.

"All right," said John Watch-me, "I'll match you to see whether you or I stand the difference between the buying and the selling price." For what he had just sold cabby would only give a buying price that was just \$100 less. This was the stake in the last match, and for the third time John Watch-me was able to say, "You lose."

TWO MULES WITH HISTORY

The Only Hybrids in the Geographical Service Are Sent to Kauai.

Two mules with a history were shipped down to W. B. Hardy on the island of Kauai recently. He is carrying on the work of the geographical and water research branch of the department there, and it was found that animal transportation was the only way to meet the difficulties.

There were only two mules in that branch of the service and they were over in California. Likewise Hardy was the man who worked them over there when he was on the mainland. Now he and his friends will be reunited on Kauai.

The work of the department on that island is arduous owing to the fact that where the water runs are not always roads. Accordingly, some means have to be found by which the investigator could get about. He has a saddle and pack and can ride the mules as far as he can get them over the tracks, and then do the rest of the work on foot. The work necessitates constant traveling of a rough sort.—Honolulu Bulletin.

Not a Cheap Building.

It has been estimated that to rebuild the pyramid of Cheops under modern conditions an expenditure of \$100,000,000 would be necessary and the labor of 40,000 men for two years required.

It has been calculated that the work really required the services of 100,000 men for thirty years.

The pyramid occupies a space of twelve and three-quarters acres, is 746 feet high and contains about 143,315,000 cubic yards of stone and granite.

The material alone represents an item of \$36,000,000, while the labor would increase this amount to \$72,000,000. To this must be added \$3,000,000 for tools, transportation, and similar items.

The pyramid is built on a solid rock 150 feet deep, and to build a foundation of this character would add to the cost to the extent of making the total of \$100,000,000.—Scientific American.

When Sleeping.

It is well to sleep from infancy with the head uncovered, as the hair thus retains its beauty longer. On retiring the hair should be raised high above the ears, without pulling, plaited loosely in a single braid and tied with a silk or cotton ribbon. Avoid wearing starched nightcaps, as the starch is injurious to the hair. When old age approaches it may be well to wear nightcaps.

Brush the hair well, using a soft brush, on going to bed and in the morning. The best brushes are made with short bristles. If the hair is combed from the roots downward without being divided in several parts, much harm may be done to it. The hairs would certainly be broken off, become uneven and could never be made to look cared for. It is an excellent thing to smooth the hair with the hands.

Cats Drive Off Snakes.

For many years I have been running a cattle station in Queensland, where snakes are tolerably numerous. At the head station we have always kept up a standing army of from 15 to 20 cats and have been practically free from the presence of snakes about the building and yards.

That this was owing to the presence of our cats I have no doubt whatever. They were always on the lookout, and I have often seen members of our feline body guard growling over dead or dying snakes and have more than once witnessed savage encounters between them and their victims. On the other hand, martyrs to their duty were from time to time found dead in the morning with all the evidence of a fight and their defeat in the shape of a snakebite on their bodies.—Spectator.

TAME GULLS OF SHETLAND

Each Family in Lerwick Has Its Own Flock Which the Children Feed.

There are many small villages in the world that have only one street; but Lerwick, in Shetland, besides having only a single street possesses only one tree, and it is not a very tall one either. There are no land birds there, not even a sparrow; but the sea gulls are plentiful.

The inhabitants of Shetland are very proud of their tree and very kind to the gulls, of whom the children make pets. Children who are brought for the first time to see the wonders of one-streeted Lerwick are always shown, as a great curiosity, "the only tree in Shetland."

The sea gulls are the sparrows of Lerwick; and as such they have a greater share in the town's life than the sparrows of London. In the morning you will note that a sea gull sits on every chimney pot. Sea gulls swoop and hover over every roof in town. The air is full of their strange, high, plaintive, haunting cries.

Every house has its own familiar sea gulls and every street its own band of them. But, according to the Fruit Magazine, they never mix. The children in each house have a pet name for their own particular sea gulls; and, having called them by those names, they feed them every day.

Each sea gull knows what is meant for him. No bird attached to one house ever seeks to eat the food scattered from the house next door. He does not dare to do so. So all day long the sea gulls hover and call over the roofs of Lerwick.

The people of the town if they come across a little pile of rice laid upon the roadway step over it with care. They know that it has been placed there for some sea gull. And at night the sea gulls leave their appointed chimney-pots and fly gracefully away to their resting places on the rocks of the Isle of Noss.

OLD FASHIONED FAMILY PEW

In That Rested the Strength of the Church, and It Should Be Restored.

One sometimes hears a deal of nonsense about the danger of creating a prejudice against religion in the mind of a child by making him attend church once a week. The danger would seem to be about one-tenth as great as that of arousing a prejudice against education by sending him to school twice a day. In both cases the remedy lies in the good sense of the parents and their estimate of the value of religion and education carefully instilled into the child's mind.

The strength of the church has been in the old-fashioned pew, with father at one end and mother at the other, and a stairway of more or less restless children. From that pew have gone out the upright, devout, consecrated men and women who have loved the church and maintained her worship and done her work in their several generations. For the sake of the church, and especially for the sake of the children, let it be restored.

If it be impossible for the children to attend both Sunday school and the church service, this writer would by all means teach them the catechism at home and bring them to church that they may learn to worship God in the congregation of his people.—Southern Churchman.

Valuable Jamaican Woods.

The most valuable of the Jamaican woods are the yaca, the bull tree, ironwood, hahoe, juniper, cedar, mahogany, lignum vitae, ebony, fiddlewood, yoke, prickly yellow, broad leaf, soapwood, cashew and calabash. Hardwood is used principally for railway sleepers, telegraph poles and fence posts, cedars used chiefly for native shingles and furniture, and other woods are used in building houses in the highlands. Unfortunately the streams are not large enough to log them to the coast, but there is no reason why portable engines and sawmills should not be utilized so as to turn these woods into the market.

How Perfume is Weighed.

It was the Italian physician Salvioni who devised a microbalance of such extreme delicacy that it clearly demonstrated the loss of weight of musk by volatilization. Thus the invisible perfume floating off in the air is indirectly weighed.

The essential part of the apparatus is a very thin thread of glass, fixed at one end and extended horizontally. The microscopic objects to be weighed are placed upon the glass thread near its free end and the amount of flexure produced is observed with a microscope magnifying 100 diameters.

A mote weighing one thousandth of a milligram is said perceptibly to bend the thread.—Buffalo Courier.

Cheap Mode of Living.

With no rent to pay, no street car fares or other of the usual unavoidable city expenses to meet, the barge and canal boat men of the Netherlands live possibly the most frugal lives of any of the urban working classes in Europe. They, with their families, exist in the hulls of their craft. The rooms are small, with little ventilation, and necessarily low to enable the boats to pass under the bridges. The decks form the children's playground. Chickens are sometimes kept on the boat and consume the garbage.

Hopkinsville Market
Quotations.

Corrected Sept. 21, 1911.

RETAIL GROCERY PRICES.

Country lard, good color and clean 12 1/2c per pound.

Country bacon, 11c per pound.

BEING BRISK A GOOD HABIT

Children Should Be Taught Quickness in Running Errands and in Dressing Themselves.

If a child is allowed to acquire a slow, dawdling manner when told to do any particular duty it will be found very difficult to effect a cure, and this means a serious hindrance to success in after years.

Teach them while very young to do everything promptly and to finish what they have commenced. If they are sent on a message make them go directly to the shop and not loiter on the way. Children may be seen at any time carrying a message and lingering to look at everything on the way.

I often wonder at what time the poor mother gets her messages home, when I see a child loitering about instead of walking along briskly. Quickness in dress, also, should be insisted upon. If too young to dress themselves they should be taught to keep still while the mother or sister puts on their clothing.

At a later age forbid any running about the house until fully dressed—and quickly dressed. Some little maidens are rather fond of looking in the glass while dressing and this is a habit which should be at once repressed. It not only encourages vanity but it causes the child to waste much valuable time.

"AND MY WIFE, ROSIE," TOO

Bridegroom Who Had Forgotten to Register His New Better Half Quickly Makes Amends.

In spick and span raiment, carrying each a new suit case and a timid expression, they entered the Hotel Narragansett and inquired the way unhesitatingly to the desk, says the Providence Journal.

Spying a kernel of rice on the youth's hat brim, the clerk smiled covertly, whirled the register with an encouraging flourish and placed the inked pen in the nervous hand.

"John B—, New Bedford, Mass.," wrote the youth, pushed back his hat, upset the kernel of rice and wiped his beaded brow.

"But, er—the lady?" inquired the clerk soothingly.

"She's my wife," quoth the youth, straightening up, bristling.

"She ought to be registered," advised the clerk thoughtfully.

"Ain't you put me down?" the lady murmured, looking over the youth's shoulder.

"O, sure, I—I forgot. Gimme the pen," said the youth, quickly.

Whereupon he smiled and wrote: "And my wife, Rosie."

Motoring at Its Best.

Few motorists know of motoring in all its fullness. They drive along country roads for a hundred miles or so, through towns so closely set that they virtually run through one long village, and they think they have motored. They cross the ocean and enjoy the perfect roads of France and Switzerland, and imagine they have experienced all there is in life in the motor car; but no one has ever been brought to a full realization of what motoring really is, or what the wonderful modern machine of man's creative genius is really capable of doing until they have sat in a racing car side by side with an expert driver and tasted the sport as it is under such conditions. Lord Byron once wrote: "What a delightful thing is a turnpike road, such a means of speeding the earth as scarce the eagle in the broad air can accomplish." He certainly spoke in prophecy of the motor car, and especially of the racing machine, which defies distance and shrinks space into the most tiny proportions.—The Columbian.

Monarchs of England.

The first to rule over all England was Egbert, King of Wessex, who united all the various petty kingdoms and became King of England in 827. The greater kingdom was disrupted from 878 to 958, when the Danes ruled north of the Thames. In the latter year King Edgar reunited the kingdom and since that time it has never been partitioned. Between Edmund Ironside (1016) and Edward the Confessor (1042) three Danish kings ruled all England, Canute, Harold I. and Hardicanute. The first king of Great Britain was James I. (1603). The first king of the United Kingdom of Great Britain and Ireland was George III. From the conquest of Ireland in 1172 by Henry II. the kings of England were styled Lord of Ireland until the assumption of the title King of Ireland by Henry VIII., and thereafter this title was used until the act of union in 1801. The imperial sovereignty of India was assumed by Queen Victoria.

Moth Balls in the Orient.

"You will find strange names for ordinary things in the Far East," said an American who has recently been in those parts.

"When I struck Singapore I had a lot of heavy clothes with me which had been necessary on a journey across Siberia. I decided to put them away in a trunk, but thought I would get some moth balls from a drug store."

"Moth balls?" repeated the chemist with a stare.

"Why, yes; those things that you put in clothes to keep moths out," I explained.

"Oh," he said, intelligence showing in his eyes, "you mean apthalated marbles."

Relieves and strengthens tired, weak, inflamed eyes. Heals sore throat, wounds and cuts. 25 and 50 cts. a box, drug stores or by mail postpaid. Sample Free. THE PAXTON TOILET CO., BOSTON, MASS.

KENTUCKY CONVENTION

At Louisville November 13-15, 1911.

Half fare rates good returning until Saturday, November 18, from all points in Kentucky.

TUESDAY NOVEMBER 14.

The Convention will assemble Tuesday morning at 10 o'clock, Gov. A. E. Williams presiding. Invocation by Rev. E. S. Alderman. The subjects to be discussed at the session Tuesday morning will be educational topics. The addresses scheduled are as follows:—The "Greatest Need in Kentucky," by Mr. J. A. Sharon, of Richmond, Ky., of the Eastern Kentucky Normal School. Mr. Sharon is chairman of the Legislative Committee of the Kentucky Educational Association and the address will deal with legislation, which this organization thinks is needed by Kentucky Schools.

The "Rural School in Relation to Rural Uplift," by Dr. Fred Mutchler of the Western Kentucky Normal School. This address by Dr. Mutchler has been delivered in other states at meetings of educators, and has attracted wide spread attention. "Rural Schools, Past, Present and Future," by T. J. Coates, of Richmond, Supervisor of the State Rural Schools. "The Kentucky State Fair" by H. M. Froman, of Ghent, Ky. "What the Women Want For Kentucky" by Mrs. R. N. Roark, of Richmond, Ky., Chairman of the Committee on Education of the Kentucky Federation of Women's Clubs.

After each address time will be allowed for comment and discussion. At 12 o'clock Tuesday the convention will adjourn for luncheon. The delegates will be the guests of the Louisville Convention and Publicity League for this luncheon.

The Convention will reassemble at 2 o'clock and continue with the addresses and discussions outlined for the day, after an invocation by the Rev. Dr. E. L. Powell. It is hoped that all of the addresses will be completed by 3 o'clock at which time there will be instituted "The Open Forum." The purpose of this feature of the program is to give an opportunity for any delegate to bring before the convention for its consideration any topic that he considers of interest. It is to be entirely a free discussion and it is believed that it will prove a most attractive feature. Any matter of interest bearing upon the welfare of the people of Kentucky may be brought up without any previous notice to the committee on programme. Speeches will be limited in time. The Tuesday evening session, at which Senator W. O. Bradley, has been invited to preside, will begin at 8 o'clock. Two addresses will be delivered after an invocation by Rev. Dr. J. S. Lyons, one on "Tax Revision," by Mr. W. O. Davis, of Versailles, Ky. and the other "Tax Revision and Revision of the Tax Payer," by John E. Garner, of Winchester, who is chairman of the State Board of Equalization. Both of these gentlemen are authorities on the subjects they will discuss and are most entertaining, as well as instructive speakers. The remainder of the evening will be devoted to a general discussion of Tax Revision, a subject that is claiming a great deal of attention in the state and it will doubtless be brought before the next legislature for consideration.

WEDNESDAY NOVEMBER 15.
The Wednesday session will begin at 10 o'clock, at which the Governor-elect, Hon. James B. McCreary has been invited to preside. Invocation by Rabbi H. G. Enlow. Hon. George W. Knerr, of the Department of Agriculture, Washington, D. C., will deliver an address on "The Farm and the Consolidated School, a matter of equal interest to those concerned in education and those concerned in agriculture. "State Aid in Road Building" is the title of an address that will be delivered by Mr. H. A. Sommers, of Elizabethtown, Ky. Mr. Sommers' advocacy of good roads is well known and he will explain, in a measure, what will be presented to the Legislature at its next session. Two other addresses in the matter of good roads are being provided for, but announcement of the speakers can not be made. Mr. J. W. Newman, who has just been elected Commissioner of Agriculture will speak on the "Needs of the Kentucky Farmer."

At the conclusion of the schedule of papers, there will be again an Open Forum for continuation of the free discussions begun at the previous days' sessions. It is desired to spend most of the Wednesday afternoon session in this way. It is designed to give room for many topics that have been suggested to the Committee on program as matters of interest, which could not well be assigned to anyone for fixed papers. The last regular order of business for the Wednesday afternoon session will be the report of the Committee on resolutions, embodying the sentiments of the convention on the matters that have been discussed. On Wednesday night a banquet will be given to the delegates by the Louisville business organizations at the Sealbach Hotel, Hon. E. J. McDermott has been invited to preside as toastmaster. More than half of the members-elect of the General Assembly, nearly every County Judge in the State and many other notable public men have accepted invitations to attend the convention. Delegates from Hopkinsville are W. C. Doherty, Rodman Meacham, L. H. Davis, Sam Frankel, Hiram Brown, and J. J. Metcalfe.
